Anguil Advantage Programs

With Anguil as your partner, take advantage of these six value-added programs tailored to save time and money for you and your clients.

myAnguilPROJECT!

Real-time project tracking. Have peace of mind during your system build. Access your project status on any device and receive automated updates.

30+
Field &
In-house
Engineers

ENGINEERING SERVICES

Complement your team.

Engineering and Treatability Studies, Equipment Selection Assistance, Spec Writing, Drawings, Equipment Expert for PHA meetings

ROCKWELL PREFERRED

Get in front of the line.

Anguil's vendor relationships get you preferred service and support from Rockwell Technicians.

CUSTOMER FIRST FOCUS

We're here for you.

Our expert Field Service Engineers are one phone call away and ready to assist 24/7.

PARTS

Spare parts simplified.

Leverage Anguil's vendor network to streamline your parts procurement process.

SERVICE PLUS+

Our service is long-term.

We lay the groundwork for a long-term partnership with a suite of free services, including remote monitoring hardware, system checks for the first 6 months, and your first Preventive Maintenance Evaluation.

CUSTOMER FIRST FOCUS

On average, Anguil services 200+ systems from 23 different manufacturers each year. It takes just one call to quickly reach our team of Field Service Engineers who are ready to diagnose, inspect, service, retrofit, install, or commission your equipment 24 hours a day, 7 days a week.

ENGINEERING SERVICES

With over 40 years of experience and 30+ in-house engineers, you can trust our expertise. Our array of engineering services is designed to provide as much or as little support as your project requires, including engineering and treatability studies, specification writing and review, technology and site evaluation and more. Plus, get an 18-20% credit back on engineering services with an Anguil system purchase.

ROCKWELL PREFERRED

Our investment in our services is your reward. If your client uses Allen-Bradley components, Anguil's participation in Rockwell's Preferred Block of Time Program gets your clients priority dispatch, reducing costly downtime.

SERVICE PLUS+

The ServicePlus Program sets you up for long-term, pain-free operation from the start. We optimize your system's first year in operation with a suite of complementary services, including remote monitoring, system checks for the first six months, and your first onsite Preventive Maintenance Evaluation (less travel and living).

PARTS

Anguil's Parts Program allows you to benefit from our extensive vendor network so you can enjoy advantageous pricing and pre-negotiated terms and conditions. Your SAM facilitates the entire process from initial contact to shipment and installation concerns, simplifying your parts procurement process.

MYANGUILPROJECT!

Check the real-time status of your project from any PC or mobile device on your Trello-powered myAnguilProject! dashboard, which includes automated updates and a forum to interact with your Anguil project team so you can have peace of mind during your system build.
